

SUMMARY

Computer Science Engineering Fresher, B.E CSE 2026 Batch from Satyam College of Engineering & Technology. Proficient in Data Structures, Algorithms, Python, C, Java, and Machine Learning using Scikit-learn, Librosa, and CNN/RNN. Developed an Emotion Detection from Speech ML model and a Sales Dashboard using Excel. Seeking an entry-level Software Developer role to apply technical skills and contribute to scalable product development.

EDUCATION

B.E. Computer Science and Engineering | CGPA: 7.85 / 10

Satyam College of Engineering & Technology

2022 - 2026

TECHNICAL SKILLS

- Backend: React, Node.js, Express.js, MongoDB
- Frontend: HTML, CSS, JavaScript, jQuery, Bootstrap
- Database: MongoDB
- Tools: Git, VS Code

LANGUAGES

- Tamil
- English

PROJECTS

Emotion Detection from Speech using Machine Learning

- Developed an ML model to classify 4 emotions: Happy, Sad, Angry, and Neutral from audio speech inputs.
- Trained and compared 4 models: SVM, Random Forest, CNN, and RNN using RAVDESS, SAVEE, and EMO-DB datasets.
- Extracted audio features like MFCC, Pitch, and Energy after noise removal and normalization for better accuracy.
- Impact:** Built a system that helps machines understand human feelings, with applications in voice assistants and healthcare. Final Year Project 2025-2026.

Sales Dashboard Automation

- Designed an interactive sales dashboard using Pivot Tables and Charts to analyze sales data.
- Automated report generation using VLOOKUP and conditional formatting.
- Impact:** Reduced manual report creation time from 2 hours to 15 minutes.

CERTIFICATION

- MERN Full Stack Development Certification - GTECH, Tenkasi (2026)
- CYBER SECURITY
- CADD EXPERT - Web Designing
- IBM

SOFT SKILLS

- Positive Thinking
- Self-Motivated
- Dedicated
